Cabinet for automotive bulbs

item number.: 40 27289 00719 9

description:

assortment: Per 10x H1, H1+50, H3, H4, H4+60, H7, H7+50, H7 Longlife, PY21W, P21/5W, interior lamp 10W. Per 20x P21W, C5W, glass base lamp 1,2W. Per 30x R5W, R10W, W5W, T4W. 1x bulb testing instrument.

Plastic base lamp black

item number.: 40 27289 00379 5

description:

12 volt - 1,2 watt - B8,5d

Glass base lamp T5

item number.: 40 27289 00062 6

description:

12 volt - 1,2 watt - W2x4,6d

Glass base lamp T5 blister

item number.: 40 27289 00596 6

description:

12 volt - 1,2 watt - W2x4,6d blister

Glass base lamp T5 24V

item number.: 40 27289 00071 8

description:

24 volt - 1,2 watt - W2x4,6d

Glass base lamp T5

item number.: 40 27289 00378 8

description:

12 volt - 2 watt - W2x4,6d

Glass base lamp T10

item number.: 40 27289 00380 1

description:

12 volt - 2 watt - W2,1x9,5d

Glass base lamp W3W

item number.: 40 27289 00063 3

description:

12 volt - 3 watt - W2,1x9,5d

Glass base lamp W3W blister

item number.: 40 27289 00597 3

description:

12 volt - 3 watt - W2,1x9,5d blister

Glass base lamp W5W

item number.: 40 27289 00064 0

description:

12 volt - 5 watt - W2,1x9,5d

Glass base lamp W5W blister

item number.: 40 27289 00598 0

description:

12 volt - 5 watt - W2,1x9,5d blister

Glass base lamp T10 24V

item number.: 40 27289 00382 5

description:

24 volt - 5 watt - W2,1x9,5d

Brake/flash/rear-light bulb T4W

item number.: 40 27289 00061 9

description:

12 volt - 4 watt - BA9s

Brake/flash/rear-light bulb T4W blister

item number.: 40 27289 00595 9

description:

12 volt - 4 watt - BA9s blister

Brake/flash/rear-light bulb T4W 24V

item number.: 40 27289 00528 7

description:

24 volt - 4 watt - BA9s

Brake/flash/rear-light bulb T4W 24V HD

item number.: 40 27289 00074 9

description:

24 volt - 4 watt - BA9s HD

Brake/flash/rear-light bulb R5W

item number.: 40 27289 00059 6

description:

12 volt - 5 watt - BA15s

Brake-/flash-/rear-light bulb R5W blister

item number.: 40 27289 00591 1

description:

12 volt - 5 watt - BA15s blister

Brake-/flash-/rear-light bulb R5W 24V

item number.: 40 27289 00068 8

description:

24 volt - 5 watt BA15s

Brake-/flash-/rear-light bulb R5W 24V HD

item number.: 40 27289 00073 2

description:

24 volt - 5 watt - BA15s HD

Brake-/flash-/rear-light bulb R10W

item number.: 40 27289 00057 2

description:

12 volt - 10 watt - BA15s

Brake-/flash-/rear-light bulb R10W blister

item number.: 40 27289 00592 8

description:

12 volt - 10 watt - BA15s blister

Brake/flash/rear-light bulb R10W 24V

item number.: 40 27289 00067 1

description:

24 volt - 10 watt - BA15s

Brake/flash/rear-light bulb R10W 24V HD

item number.: 40 27289 00107 4

description:

24 volt - 10 watt - BA15s HD

Brake/flash/rear-light bulb P21W

item number.: 40 27289 00056 5

description:

12 volt - 21 watt - BA15s

Brake/flash/rear-light bulb P21W blister

item number.: 40 27289 00590 4

description:

12 volt - 21 watt - BA15s blister

Brake/flash/rear-light bulb P21W 24V

item number.: 40 27289 00066 4

description:

24 volt - 21 watt - BA15s

Brake/flash/rear-light bulb P21W 24V HD

item number.: 40 27289 00072 5

description:

24 volt - 21 watt - BA15s HD

Brake/flash/rear-light bulb P21/4W

item number.: 40 27289 00994 0

description:

12 volt - 21/4 watt - BAZ15d

Brake/flash/rear-light bulb P21/4W blister

item number.: 40 27289 00995 7

description:

12 volt - 21/4 watt - BAZ15d blister

Brake/flash/rear-light bulb P21/5W

item number.: 40 27289 00055 8

description:

12 volt - 21/5 watt - BAY15d

Brake/flash/rear-light bulb P21/5W blister

item number.: 40 27289 00589 8

description:

12 volt - 21/5 watt - BAY15d blister

Brake-/flash-/rear-light bulb PY21W (yellow)

item number.: 40 27289 00376 4

description:

12 volt - 21 watt - BAU15s

Brake-/flash-/rear-light bulb PY21W (yellow) blister

item number.: 40 27289 00600 0

description:

12 volt - 21 watt - BAU15s blister

Automotive bulb H1

item number.: 40 27289 00053 4

description:

12 volt - 55 watt - P14,5s

Automotive bulb H1 blister

item number.: 40 27289 00588 1

description:

12 volt - 55 watt - P14,5s blister

Automotive bulb H1+50

item number.: 40 27289 00482 2

description:

12 volt - 55 watt - P14,5s +50

Automotive bulb H1+50 blister

item number.: 40 27289 00601 7

description:

12 volt - 55 watt - P14,5s +50 blister

Automotive bulb H3

item number.: 40 27289 00054 1

description:

12 volt - 55 watt - PK22s

Automotive bulb H3 24V

item number.: 40 27289 00384 9

description:

24 volt - 70 watt - Pk22s

Automotive bulb H4

item number.: 40 27289 00052 7

description:

12 volt - 60/55 watt - P43t

Automotive bulb H4 blister

item number.: 40 27289 00587 4

description:

12 volt - 60/55 watt - P43t blister

Automotive bulb H4+60

item number.: 40 27289 00481 5

description:

12 volt - 60/55 watt - P43t +60

Automotive bulb H4+60 blister

item number.: 40 27289 00599 7

description:

12 volt - 60/55 watt - P43t +60 blister

Automotive bulb H4 24V

item number.: 40 27289 00065 7

description:

24 volt - 75/70 watt - P43t

Automotive bulb H7

item number.: 40 27289 00140 1

description:

12 volt - 55 watt - PX26d

Automotive bulb H7+50

item number.: 40 27289 00483 9

description:

12 volt - 55 watt - PX26d +50

Automotive bulb H7 blister

item number.: 40 27289 00586 7

description:

12 volt - 55 watt - PX26d blister

Automotive bulb H7+50 blister

item number.: 40 27289 00602 4

description:

12 volt - 55 watt - PX26d +50 blister

Automotive bulb H7 Longlife

item number.: 40 27289 00480 8

description:

12 volt - 55 watt - PX26d Longlife

Automotive bulb H7 24V

item number.: 40 27289 00484 6

description:

24 volt - 70 watt - PX26d

XENON D1S

item number.: 40 27289 01867 6

description:

35 watt - P32d-3. Colour temperature 4.150K and luminous flux 3.200lm.

XENON D2R

item number.: 40 27289 01464 7

description:

35 watt - P32d-3. Colour temperature 4.150K and luminous flux 3.200lm.

XENON D2S

item number.: 40 27289 01465 4

description:

35 watt - P32d-2. Colour temperature 4.150K and luminous flux 3.200lm.

Interior lamp C5W

item number.: 40 27289 00060 2

Glass-cleaner 500 ml

item number.: 40 27289 00358 0

description:

Phosphate-free gloss cleaner for all glass surfaces. With an antistatic effect. Works against typical dirt such as dust, grease, oil and nicotine traces.

Windscreen cleaning foam 500 ml

item number.: 40 27289 01322 0

description:

Active cleaning foam with an excellent sprinkling and cleaning efficiency. Find its way also to hard to reach places. For a efficient, rapid and streak free cleaning.

Wheel rim cleaner gel 500 ml

item number.: 40 27289 00615 4

description:

A jelly-type cleaner for removing persistent dirt. Rapidly and gently removes persistent oxidation coatings, brake dust and encrusted street dirt.

Insect remover gel EXTRA STRONG 500 ml

item number.: 40 27289 00619 2

description:

Rapidly and reliably detaches all insect residues and rough dirt. Sticks due to its jelly-type consistency to wherever it is needed and thus achieves an optimal effect.

Screenwash-concentrate 1:100 32 ml

item number.: 40 27289 00433 4

description:

A highly concentrated cleaning additive for windscreen washing systems. Rapidly and reliably removes all persistent dirt such as insects, oily films and wax.

Screenwash-concentrate 1:100 250 ml

item number.: 40 27289 00373 3

description:

A highly concentrated cleaning additive for windscreen washing systems. Rapidly and reliably removes all persistent dirt such as insects, oily films and wax.

Windscreen cleaner - ready to use 5 Litre

item number.: 40 27289 01699 3

description:

Ready to use cleaning agent for windscreen washing systems. Removes rapidly and reliably all persistent dirt such as insects, oily films and wax. Avoids stress cracks in modern synthetic headlamps. Free of streaks cleaning. Avoids diffuse reflection in the rain, dark and back light. In winter also mixable with all standard anti-freezing agents (e.g. Cartechnic antifreeze for washing systems). With peach fragrance.

Car-shampoo 500 ml

item number.: 40 27289 00463 1

description:

Concentrated cleaning agent for intensive and gentle manual car wash. Removes water soluble as well as aliphatic and oil emulsive dirt.

Car-shampoo 5 Litre

item number.: 40 27289 00388 7

description:

Concentrated cleaning agent for intensive and gentle manual car wash. Removes water soluble as well as aliphatic and oil emulsive dirt.

Car-shampoo 10 Litre

item number.: 40 27289 00389 4

description:

Concentrated cleaning agent for intensive and gentle manual car wash. Removes water soluble as well as aliphatic and oil emulsive dirt.

Nano cleaning polish 250 ml

item number.: 40 27289 01593 4

description:

Polish and care product for old and strong stressed car paint. Cleans and protects. Intensive cleaning with a high proportion of finely polishing agents. The combination of natural and non-natural waxes provides a weather-proofed sealing. Nano-based. Water beading for approximately six month. With carnauba wax.

Nano hard wax 250 ml

item number.: 40 27289 01595 8

description:

Paint sealing and care product for normally stressed car paint. Nano-based. The combination of natural and non-natural waxes provides a weather-proofed sealing. Water beading for approximately six month. With carnauba wax.

Nano paint cleaner 250 ml

item number.: 40 27289 01594 1

description:

Abrasive-acting, nano-based cleaning polish for a intensive basic cleaning and preparation of old, strongly weathered or matt paintwork. Contains micro polishing agents, which ensure a deep and efficient cleansing and renew the original colouring. For all kind of paintwork. High quality oils ensure an easy and power-saving handling.

Cold cleaning solvent 500 ml

item number.: 40 27289 00618 5

description:

A concentrated special washing agent. An excellent cleaning power for removing strong fouling with oil and dust. Particularly suitable for cleaning automobile engines and other drive assemblies, vehicle underbodies, building and agricultural machines.

Cold cleaning solvent 5 Litre

item number.: 40 27289 01213 1

description:

A concentrated special washing agent. An excellent cleaning power for removing strong fouling with oil and dust. Particularly suitable for cleaning automobile engines and other drive assemblies, vehicle underbodies, building and agricultural machines.

Snow Chain Super 9 mm IS 60

item number.: 40 27289 01949 9

description:

For sports car, wide-base tyre and narrow wheelhouse. Cross section chain with special steel alloy, hardened and zinc-plated. Assembly without car manoeuvring.

Snow Chain Super 9 mm IS 62

item number.: 40 27289 01950 5

description:

For sports car, wide-base tyre and narrow wheelhouse. Cross section chain with special steel alloy, hardened and zinc-plated. Assembly without car manoeuvring.

Transmission oil SAE 75W-80 SYNT FE 20 Litre

item number.: 40 27289 02082 2

description:

Fully synthetic transmission oil with lowered low-temperature viscosity for excellent fuel efficiency. Especially adapted to wear protection and cold shifting behavior requirements of modern passenger cars manual gearboxes. ATR recommends this oil for vehicles for which the following specifications are required: API GL-4/GL-5, BMW MTF LT-1/-2/-3/-4, Ford WSS-M2C200-D2, MB 235.10, PSA 9730 A2/A8/B 71 2330, Toyota JWS 227, VW G 009 317/G052 171/G52 178/G052 512/ G052 527/G052 532/G052 726/G052 798/G055 726

Transmission oil ATF D 500 ml

item number.: 40 27289 00778 6

description:

For universal use in automatic gearboxes, servo-assisted steerings and hydraulic assemblies. Specifications: GM 6137M. Fulfils and exceeds the performance requirements of the DEXRON II D specification.

Transmission oil ATF D 1 Litre

item number.: 40 27289 00779 3

description:

For universal use in automatic gearboxes, servo-assisted steerings and hydraulic assemblies. Specifications: GM 6137M. Fulfils and exceeds the performance requirements of the DEXRON II D specification.

Transmission oil ATF D 20 Litre

item number.: 40 27289 00780 9

description:

For universal use in automatic gearboxes, servo-assisted steerings and hydraulic assemblies. Specifications: GM 6137M. Fulfils and exceeds the performance requirements of the DEXRON II D specification.

Transmission oil ATF D 60 Litre

item number.: 40 27289 00781 6

description:

For universal use in automatic gearboxes, servo-assisted steering and hydraulic assemblies. Specifications: GM 6137M. Fulfills and exceeds the performance requirements of the DEXRON II D specification.

Transmission oil ATF III G 1 Litre

item number.: 40 27289 00867 7

description:

Universal automatic transmission fluid for use in many different vehicles and machines. Specifications: ATR recommends this oil for vehicles for which the following specifications are required: Type A Suffix A (TASA), Type Dexron II-D, Type Dexron III-G, Cat TO-2, ZF TE-ML 02F, 03D, 04D, 09, 11B, 14A+B, 17C, Type Allison C-4, FORD MERCON, MB 235.71/236.7, MB 236.1/236.5, MAN 339 D+F, Voith G607.

Transmission oil ATF III G 20 Litre

description:

High-Performance steering transmission oil based on mineral oils for use in hydraulic power assisted steering. Specifications: Dexron IID ATR recommends this oil for vehicles for which the following specifications are required: MB 236.3, ZF TE-ML 09

Hydraulic oil HLP 10 1 Litre

item number.: 40 27289 02609 1

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 10, DIN 51 524 T.2, ISO VG 10

Hydraulic oil HLP 10 5 Litre

item number.: 40 27289 02610 7

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 10, DIN 51 524 T.2, ISO VG 10

Hydraulic oil HLP 22 20 Litre

item number.: 40 27289 00301 6

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 22, DIN 51 524 T.2, ISO VG 22

Hydraulic oil HLP 32 1 Litre

item number.: 40 27289 00786 1

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 32, DIN 51 524 T.2, ISO VG 32

Hydraulic oil HLP 32 5 Litre

item number.: 40 27289 00527 0

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 32, DIN 51 524 T.2, ISO VG 32

Hydraulic oil HLP 32 5 Litre

item number.: 40 27289 00854 7

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 32, DIN 51 524 T.2, ISO VG 32

Hydraulic oil HLP 32 20 Litre

item number.: 40 27289 00787 8

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 32, DIN 51 524 T.2, ISO VG 32

Hydraulic oil HLP 32 60 Litre

item number.: 40 27289 00303 0

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 32, DIN 51 524 T.2, ISO VG 32

Hydraulic oil HLP 46 1 Litre

item number.: 40 27289 00788 5

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 46, DIN 51 524 T.2, ISO VG 46

Hydraulic oil HLP 46 5 Litre

item number.: 40 27289 00505 8

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 46, DIN 51 524 T.2, ISO VG 46

Hydraulic oil HLP 46 5 Litre

item number.: 40 27289 00856 1

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 46, DIN 51 524 T.2, ISO VG 46

Hydraulic oil HLP 46 20 Litre

item number.: 40 27289 00304 7

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 46, DIN 51 524 T.2, ISO VG 46

Hydraulic oil HLP 46 20 Litre

item number.: 40 27289 00789 2

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 46, DIN 51 524 T.2, ISO VG 46

Hydraulic oil HLP 46 60 Litre

item number.: 40 27289 00857 8

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 46, DIN 51 524 T.2, ISO VG 46

Hydraulic oil HLP 46 205 Litre

item number.: 40 27289 00306 1

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 46, DIN 51 524 T.2, ISO VG 46

Hydraulic oil HLP 68 1 Litre

item number.: 40 27289 00790 8

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 68, DIN 51 524 T.2, ISO VG 68

Hydraulic oil HLP 68 5 Litre

item number.: 40 27289 00791 5

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 68, DIN 51 524 T.2, ISO VG 68

Hydraulic oil HLP 68 20 Litre

item number.: 40 27289 00307 8

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 68, DIN 51 524 T.2, ISO VG 68

Hydraulic oil HLP 68 20 Litre

item number.: 40 27289 00792 2

description:

Hydraulic fluid for use in hydraulic systems under high loads. Specifications: HLP 68, DIN 51 524 T.2, ISO VG 68

Engine oil SAE 0W-40 1 Litre

item number.: 40 27289 00557 7

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SM/CF, ACEA A3-04, B4-04. ATR also recommends this oil for vehicles for which the following specifications are required: MB 229.3, VW 502.00 and 505.00.

Engine oil SAE 0W-40 1 Litre

item number.: 40 27289 00731 1

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SN/CF, ACEA A3/B4

Engine oil SAE 0W-40 5 Litre

item number.: 40 27289 00558 4

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SM/CF, ACEA A3-04, B4-04. ATR also recommends this oil for vehicles for which the following specifications are required: MB 229.3, VW 502.00 and 505.00.

Engine oil SAE 0W-40 5 Litre

item number.: 40 27289 00732 8

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SN/CF, ACEA A3/B4

Engine oil SAE 0W-40 20 Litre

item number.: 40 27289 00559 1

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SM/CF, ACEA A3-04, B4-04. ATR also recommends this oil for vehicles for which the following specifications are required: MB 229.3, VW 502.00 and 505.00.

Engine oil SAE 0W-40 20 Litre

item number.: 40 27289 00733 5

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SN/CF, ACEA A3/B4

Engine oil SAE 0W-40 60 Litre

item number.: 40 27289 00560 7

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SM/CF, ACEA A3-04, B4-04. ATR also recommends this oil for vehicles for which the following specifications are required: MB 229.3, VW 502.00 and 505.00.

Engine oil SAE 0W-40 60 Litre

item number.: 40 27289 00734 2

description:

A fully synthetic low-viscosity oil. For petrol and diesel engines. Classifications and specifications: API SN/CF, ACEA A3/B4

Engine oil SAE 5W-40 1 Litre

item number.: 40 27289 00280 4

description:

All year round low-viscosity oil with modern additive technology. For universal use in petrol and diesel engines with and without turbocharging (ATL) as well as intercooling (LLK). Specially suitable for long oil change intervals and the highest requirements from the engine. Specifications and approvals: API SM/CF, ACEA A3-98, B3-98, B4-98, MB-approval 229.3, VW 502.00 and 505.00. ATR also recommends this oil for vehicles for which the following specifications are required: BMW Longlife 98.

Engine oil SAE 5W-40 1 Litre

item number.: 40 27289 00735 9

description:

All year round low-viscosity oil with modern additive technology and synthetic components. Specifications and approvals: API SN/CF, ACEA A3, B3, B4, MB-approval 229.3, VW 502.00 and 505.00.

Engine oil SAE 5W-40 5 Litre

item number.: 40 27289 00281 1

Engine oil SAE 5W-30 MF 1 Litre

item number.: 40 27289 01700 6

description:

Rationalization oil for multi-functional use. HC high-performance motor oil especially for modern passenger car gasoline and diesel engines with turbo charging, particulate filter and unit injector systems. Especially for BMW-, MB-, Opel- and VW engines. Specifications and approvals: API SN/CF, ACEA A3/B4-04/C3, BMW Longlife 04 (backwards compatible with Longlife 01 and 98), MB-approval 229.51, VW 502.00, 505.00 and 505.01. ATR also recommends this oil for vehicles, for which the following specifications are required: GM DEXOS 2 (backwards compatible with GM-LL-A/B-025).

Engine oil SAE 5W-30 MF 5 Litre

item number.: 40 27289 01701 3

description:

HC high-performance motor oil especially for modern passenger car gasoline and diesel engines with turbo charging, particulate filter and unit injector systems. Especially for BMW-, MB-, Opel- and VW engines. Specifications and approvals: API SN/CF, ACEA A3/B4-04/C3, BMW Longlife 04 (backwards compatible with Longlife 01 and 98), MB-approval 229.51, VW 502.00, 505.00 and 505.01. ATR also recommends this oil for vehicles, for which the following specifications are required: GM DEXOS 2 (backwards compatible with GM-LL-A/B-025).

Engine oil SAE 5W-30 MF 60 Litre

item number.: 40 27289 01703 7

description:

Rationalization oil for multi-functional use. HC high-performance motor oil especially for modern passenger car gasoline and diesel engines with turbo charging, particulate filter and unit injector systems. Especially for BMW-, MB-, Opel- and VW engines. Specifications and approvals: API SN/CF, ACEA A3/B4-04/C3, BMW Longlife 04 (backwards compatible with Longlife 01 and 98), MB-approval 229.51, VW 502.00, 505.00 and 505.01. ATR also recommends this oil for vehicles, for which the following specifications are required: GM DEXOS 2 (backwards compatible with GM-LL-A/B-025).

Engine oil SAE 5W-30 MF 200 Litre

Engine oil SAE 5W-30 Longlife III 1 Litre

item number.: 40 27289 01418 0

description:

Longlife III high performance low-viscosity engine oil with synthesis technology specially for petrol and diesel passenger cars engines of VW Group with longer service intervals. Specifications and approvals: ACEA A3/B4-04/C3-04, VW 504.00 and 507.00. Exceptions: Not suitable for V10 pump-injection engines without diesel particle filter systems up to and including model year 2006, R5 pump-injection engines without diesel particle filter systems, R3 and R4 pump-injection engines and longlife service (in this case please use Cartechnic engine oil 5W-30 pump injector).

Engine oil SAE 5W-30 Longlife III 5 Litre

Engine oil SAE 5W-30 FO 1 Litre

item number.: 40 27289 01452 4

description:

Low-viscosity oil based on HC- synthesis-base oils for petrol and diesel engines. Especially for the newest generation of Ford engines. Reduces fuel consumption in turndown and full-load operation and reduces exhaust emission. Specifications: API SN/CF, ACEA A1/B1; A5/B5 ATR also recommends this oil for vehicles for which the following specifications are required: FORD WSS M2C 913-D (FORD WSS M2C 913-A, FORD WSS M2C 913-B, FORD WSS M2C 913-C), ILSAC GF-3/-4 (performance level), Renault RN 0700

KH-Topcoat Glossy

item number.:

description:

Solvent containing 1K top coat. Fast drying. Hit and shock resistant. High build, mild smell, easy to apply and good corrosion protection with system primer (for example ZN-Phosphate primer). For steel constructions, machines of all kinds and equipment technique for interior and exterior use. For example conveying machinery, container, control cabinets, pallets and storage racks.

KH-Topcoat Glossy (Kopie 1)

item number.:

description:

Solvent containing 1K top coat. Fast drying. Hit and shock resistant. High build, mild smell, easy to apply and good corrosion protection with system primer (for example ZN-Phosphate primer). KH-Single coat paint 1K satin-finished

item number.:

description:

Solvent containing synthetic resin PVC single coat paint for thick coat application with active corrosion protection. Fast drying . Hit and shook resistant . High build, mild smell, easy to apply thickly. Excellent corrosion protection effect. Weather resistant, temperature resistant up to 80°C (dry). As single coat lacquer for interior and exterior use in steel-, machines- and equipment constructions. E. g. conveyor plants, container, transport container etc.

PU-Single Layer Coating Flat 10:1

item number.:

description:

Solvent borne 2K PU single layer and top coat. Up to 100 my dry film thickness (DFT) in one spray application. Excellent adhesion . Excellent corrosion protection. Easy to apply. For steel- and industrial construction, for use on metallic substrates with and without primer, where decorative surfaces require good corrosion protection and excellent continuity under permanent exposure to the environment. Also suitable for wood.

PU-Single Layer Coating Flat approx. RAL 9005 (Ready-mix colour) 10:1 1 Kg

description:

Synthetic high performance brake fluid. Mixture of polyethylene glycol ether and additives. For hydraulic brake and coupling systems with a boiling point of at least 260° C and a wet boiling point of at least 170° C. For automobile brake and clutch systems according to DOT 3 / DOT 4. Recommended for vehicles with an ABS brake system.

Brake fluid SUPER DOT 4 PLUS 20 Litre

item number.: 40 27289 00608 6

description:

Synthetic high performance brake fluid. Mixture of polyethylene glycol ether and additives. For hydraulic brake and coupling systems with a boiling point of at least 260° C and a wet boiling point of at least 170° C. For automobile brake and clutch systems according to DOT 3 / DOT 4. Recommended for vehicles with an ABS brake system.

Brake fluid SUPER DOT 4 PLUS 30 Litre

item number.: 40 27289 00611 6

description:

Synthetic high performance brake fluid. Mixture of polyethylene glycol ether and additives. For hydraulic brake and coupling systems with a boiling point of at least 260° C and a wet boiling point of at least 170° C. For automobile brake and clutch systems according to DOT 3 / DOT 4. Recommended for vehicles with an ABS brake system.

Brake fluid SUPER DOT 4 PLUS 60 Litre

item number.: 40 27289 00609 3

description:

Synthetic high performance brake fluid. Mixture of polyethylene glycol ether and additives. For hydraulic brake and coupling systems with a boiling point of at least 260° C and a wet boiling point of at least 170° C. For automobile brake and clutch systems according to DOT 3 / DOT 4. Recommended for vehicles with an ABS brake system.

Air conditioning cleaner 100 ml

item number.: 40 27289 00944 5

description:

Absorbs unpleasant odours which can be caused by bacteria and fungi in the interior of a vehicle and/or in the ventilation ducts of vehicles. Leaves a pleasant fresh aroma. For all air conditioning systems in vehicle interiors.

Air conditioning system oil PAG 46 AA1 250 ml

item number.: 40 27289 00685 7

description:

A fully synthetic premium polyalkalene-glycol air-conditioning unit fluid. Specially designed for air-conditioning units which are filled with R 134a or R-1234yf. Caution: Increased oil consumption, by using for air conditioners which are filled with R-1234yf. Not suitable for use into hybrid vehicles.

Air conditioning system oil PAG 100 AA1 250 ml

item number.: 40 27289 00686 4

description:

A fully synthetic premium polyalkalene-glycol air-conditioning unit fluid. Specially designed for air-conditioning units which are filled with R 134a or R-1234yf. Caution: Increased oil consumption, by using for air conditioners which are filled with R-1234yf. Not suitable for use into hybrid vehicles.

Air conditioning system oil PAG 150 AA1 250 ml

item number.: 40 27289 00687 1

description:

A fully synthetic premium polyalkalene-glycol air-conditioning unit fluid. Specially designed for air-conditioning units which are filled with R 134a or R-1234yf. Caution: Increased oil consumption, by using for air conditioners which are filled with R-1234yf. Not suitable for use into hybrid vehicles.

Air conditioning system oil PAO 68 AA1 500 ml

item number.: 40 27289 00689 5

description:

Synthetic ammonia air-conditioning unit fluid. Specially designed for lubrication of compressors in ammonia cooling systems.

Air conditioning system oil PAO 68 AA1 1 Litre

item number.: 40 27289 00688 8

description:

Synthetic ammonia air-conditioning unit fluid. Specially designed for lubrication of compressors in ammonia cooling systems.

Air conditioning system oil PAO 68 + UV AA1 500 ml

item number.: 40 27289 00690 1

description:

Synthetic ammonia air-conditioning unit fluid. ISO-GRADE 68 + UV AA1 with leak location finding agent. Specially designed for lubrication of compressors in ammonia cooling systems.

Air conditioning system oil PAO 68 + UV AA1 1 Litre

item number.: 40 27289 00691 8

description:

Synthetic ammonia air-conditioning unit fluid. ISO-GRADE 68 + UV AA1 with leak location finding agent. Specially designed for lubrication of compressors in ammonia cooling systems.

Brake cleaner 500 ml

item number.: 40 27289 00094 7

description:

Rapid cleaner for brake and clutch parts. Fast evaporation. Removes dirt, oil, and resin crusts, synthetic oil and silicone residues.

Brake cleaner 750 ml

item number.: 40 27289 00405 1

description:

Rapid cleaner for brake and clutch parts. Fast evaporation. Removes dirt, oil, and resin crusts, synthetic oil and silicone residues.

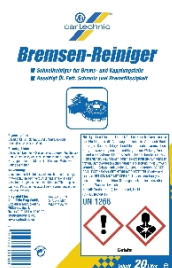

Brake cleaner 5 Litre

item number.: 40 27289 00485 3

description:

Rapid cleaner for brake and clutch parts. Fast evaporation. Removes dirt, oil, and resin crusts, synthetic oil and silicone residues.

Brake cleaner 20 Litre

item number.: 40 27289 00048 0

description:

Rapid cleaner for brake and clutch parts. Fast evaporation. Removes dirt, oil, and resin crusts, synthetic oil and silicone residues.

Brake cleaner 60 Litre

item number.: 40 27289 00205 7

description:

Rapid cleaner for brake and clutch parts. Fast evaporation. Removes dirt, oil, and resin crusts, synthetic oil and silicone residues.

Brake cleaner All 20 Litre

item number.: 40 27289 00476 1

description:

Rapid cleaner for brake and clutch parts. Middle volatile adjusted. Flashpoint > 21° C to 55° C. Removes dirt, oil, and resin crusts, synthetic oil and silicone residues.

Brake cleaner All 60 Litre

item number.: 40 27289 00477 8

description:

Rapid cleaner for brake and clutch parts. Middle volatile adjusted. Flashpoint > 21° C to 55° C. Removes dirt, oil, and resin crusts, synthetic oil and silicone residues.

White grease spray 300 ml

item number.: 40 27289 00090 9

description:

High performance lubricating grease for all areas for lubrication of moving parts. For maintenance work, springs, lockplates, seat and sliding roof rails, window mechanics, switch lever rods, hinges, bowden cables etc. Clean assembly of joints, bearings, camshafts etc.

Adhesive grease 400 ml

item number.: 40 27289 00620 8

description:

Semi-synthetic long-life adhesive grease. General adhesive lubricant for the workshop and operating area. For lubrication of suspension struts, handbrakes and coupling rods, spring rubber pads, joints, stabilizers, etc.

Synth active oil 300 ml

item number.: 40 27289 00677 2

description:

A fully synthetic high performance oil with an adhesive agent and long-term lubrication. For every inspection and maintenance operation. Particularly suitable for use on the smallest components and precision components. For use anywhere where grease is either not suitable or not desired. Excellent for getting track rods, joints and locking cylinders moving.

Silicone spray 300 ml

item number.: 40 27289 00095 4

description:

High quality care and maintenance product for inside and outside use. Removes creaking and squeaking noises on the vehicle dashboard and steering column. Lubricates rollers and guides on safety belts.

Multipurpose grease 400 gr.

item number.: 40 27289 00134 0

description:

Lithium soap lubricating grease. Can be used for sliding bearing and roller bearing lubrication for normal loads. For general lubrication and for demanding locations requiring lubrication.

Zinc spray 400 ml

item number.: 40 27289 00091 6

description:

Permanently protects against rust and pitting corrosion, also after damage to the surface. Excellent adhesion to iron and steel parts.

Rust remover 300 ml

item number.: 40 27289 00092 3

description:

Multiple action penetrating oil with a high penetrating capability. Finds its way into the smallest cracks and cavities. Loosens rust, stops corrosion and prevents further corrosion.

Ice rust remover 400 ml

item number.: 40 27289 00613 0

description:

A high quality rust remover with a crack effect brought on by extreme cooling and an excellent penetrating effect. For non-destructive loosening of extremely rusted and oxidised screw connections.

Cockpit spray 300 ml

item number.: 40 27289 00093 0

description:

Antistatic colour refresher. Optimal for refreshing the colour of plastic fittings. Returns the plastics back to their original appearance. Works on all plastic parts of the vehicle interior.

Silicon remover 500 ml

item number.: 40 27289 00359 7

description:

Special solvent and degreasing agent. Removes dirt, silicone greases and oils without leaving any residue, as well as their resinous residues. To degrease surfaces, particularly before painting them.

Leak detector spray 400 ml

item number.: 40 27289 00470 9

description:

For simple and rapid location of leaks. For compressed air brakes, pipework, soldered, welded or screw connections to fittings, gas bottles, gas devices, valves, pressure vessels for gases and air.

Ceramics spray 400 ml

item number.: 40 27289 00471 6

description:

Metal-free high temperature spray. Specially micronised white assembly paste made out of solid lubricants in a thermally stabile synthetic oil. Easy assembly and disassembly for spark plug threads (e.g. LM heads), exhaust treatment equipment (catalytic converter), a supercharger, aluminium connections on brake systems.

Brake service paste 200 ml

item number.: 40 27289 00676 5

description:

High temperature resistant brake protection paste with a very good and permanent lubrication effect. For repair work on disc and drum brakes, fittings, flanges, screw and plug connectors, guides, gliding rails and bearings. As release lubrication for reliable, problem-free disassembly.

Diesel particulate filter cleaner 400 ml

item number.: 40 27289 01712 9

description:

Free of metal cleaning-agent for loosening carbon and ash deposits in all diesel particle filters.

Cavity sealing agent 500 ml

item number.: 40 27289 00425 9

description:

An amber-coloured anti-corrosion preservative for cavities on automobiles, lorries and buses. With an excellent water-repellent and penetrating effect.

Cavity sealing agent 1.000 ml

item number.: 40 27289 00426 6

description:

An amber-coloured anti-corrosion preservative for cavities on automobiles, lorries and buses. With an excellent water-repellent and penetrating effect.

Underbody protection 500 ml

item number.: 40 27289 00427 3

description:

Permanent, thixotropic set anti-corrosion agent. Cannot be painted over. Based on bitumen. Colour: black.

Underbody protection 1.000 ml

item number.: 40 27289 00428 0

description:

Permanent, thixotropic set anti-corrosion agent. Cannot be painted over. Based on bitumen. Colour: black.

Underbody protection 1,3 Kg

item number.: 40 27289 01323 7

description:

Underbody protection based on bitumen is used for undersides and wheelhouse of passenger cars, caravans, tanks, boats, trucks, spoilers, door sills, ... Because of a thick, elastic coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. Underbody protection offers excellent rust prevention and is sound-absorbing.

Underbody protection 2,5 Kg

item number.: 40 27289 01324 4

description:

Underbody protection based on bitumen is used for undersides and wheelhouse of passenger cars, caravans, tanks, boats, trucks, spoilers, door sills, ... Because of a thick, elastic coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. Underbody protection offers excellent rust prevention and is sound-absorbing.

Stone chip underbody protection black 500 ml

item number.: 40 27289 01325 1

description:

Underbody protection based on synthetic resins and caoutchouc is used for undersides and wheelhouse of passenger cars, caravans, tanks, boats, trucks, spoilers, door sills, ... Because of a thick, elastic coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. Underbody protection offers excellent rust prevention, is paintable and sound-absorbing.

Stone chip underbody protection black 1.000 ml

item number.: 40 27289 01326 8

description:

Underbody protection based on synthetic resins and caoutchouc is used for undersides and wheelhouse of passenger cars, caravans, tanks, boats, trucks, spoilers, door sills, ... Because of a thick, elastic coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. Underbody protection offers excellent rust prevention, is paintable and sound-absorbing.

Stone chip underbody protection light grey 500 ml

item number.: 40 27289 01327 5

description:

Underbody protection based on synthetic resins and caoutchouc is used for undersides and wheelhouse of passenger cars, caravans, tanks, boats, trucks, spoilers, door sills,... Because of a thick, elastic coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. Underbody protection offers excellent rust prevention, is paintable and sound-absorbing.

Stone chip underbody protection light grey 1.000 ml

item number.: 40 27289 01328 2

description:

Underbody protection based on synthetic resins and caoutchouc is used for undersides and wheelhouse of passenger cars, caravans, tanks, boats, trucks, spoilers, door sills,... Because of a thick, elastic coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. Underbody protection offers excellent rust prevention, is paintable and sound-absorbing.

Underbody protection wax 500 ml

item number.: 40 27289 01329 9

description:

Underbody protection wax is used mainly for undersides of passenger cars. Because of its waxy coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. It prevents corrosion and rust.

Underbody protection wax 1.000 ml

item number.: 40 27289 01330 5

description:

Underbody protection wax is used mainly for undersides of passenger cars. Because of its waxy coating the vehicle is protected against mechanical loads and chemical attacks, e.g. stone-chipping, road salt, water, etc. It prevents corrosion and rust.

Body sealing material - white 310 ml

item number.: 40 27289 00680 2

description:

Elastic one-component body sealing material based on polyurethane. Colour: black. Wide range of adhesion particularly for grounds like steel plates untreated, grounded and painted, aluminium, high quality steel, ABS, GFK, PUR-RIM, polycarbonate, PUR soft, PUR hard, hard PVC, wood, glass, etc.

Body sealing material - black 310 ml

item number.: 40 27289 00681 9

description:

Elastic one-component body sealing material based on polyurethane. Colour: white. Wide range of adhesion particularly for grounds like steel plates untreated, grounded and painted, aluminium, high quality steel, ABS, GFK, PUR-RIM, polycarbonate, PUR soft, PUR hard, hard PVC, wood, glass, etc.

Multifunction seam sealing grey 310 ml

item number.: 40 27289 00717 5

description:

Multifunction seam sealing is a one-component sprayable and spreadable seam sealant for permanently elastic, strong adhesive seam sealing and for rebuilding the original structure after accident repair. Colour: grey.

Tyre mounting paste 5 Kg

item number.: 40 27289 00720 5

description:

For lubrication of tyre beads and contacting surfaces in the rim before tyre assembly/disassembly. Suitable for assembly of passenger car and commercial vehicle tyres.

Antifreeze for radiators 1,5 Litre

item number.: 40 27289 00327 6

description:

Cartechnic antifreeze for radiators protects against frost and overheating all over the year. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Please observe the manufacturer's regulations! Cartechnic antifreeze for radiators is free of potentially harmful substances like amine, nitrite and phosphates. Frost protection down to -36° Celsius at mix ratio of 1:1.

Antifreeze for radiators ready to use 1,5 Litre

item number.: 40 27289 02605 3

description:

Cartechnic antifreeze for radiators protects against frost and overheating all over the year. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Please observe the manufacturer's regulations! Cartechnic antifreeze for radiators is free of potentially harmful substances like amine, nitrite and phosphates. Ready to use down to about -35° Celsius. Not necessary to mix with water. Simply pour directly into the radiator.

Antifreeze for radiators 5 Litre

item number.: 40 27289 00256 9

description:

Cartechnic antifreeze for radiators protects against frost and overheating all over the year. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Please observe the manufacturer's regulations! Cartechnic antifreeze for radiators is free of potentially harmful substances like amine, nitrite and phosphates. Frost protection down to -36° Celsius at mix ratio of 1:1.

Antifreeze for radiators 20 Litre

item number.: 40 27289 00328 3

description:

Cartechnic antifreeze for radiators protects against frost and overheating all over the year. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Please observe the manufacturer's regulations! Cartechnic antifreeze for radiators is free of potentially harmful substances like amine, nitrite and phosphates. Frost protection down to -36° Celsius at mix ratio of 1:1.

Antifreeze for radiators 60 Litre

item number.: 40 27289 00329 0

description:

Cartechnic antifreeze for radiators protects against frost and overheating all over the year. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Please observe the manufacturer's regulations! Cartechnic antifreeze for radiators is free of potentially harmful substances like amine, nitrite and phosphates. Frost protection down to -36° Celsius at mix ratio of 1:1.

Antifreeze for radiators 200 Litre

item number.: 40 27289 00330 6

description:

Cartechnic antifreeze for radiators protects against frost and overheating all over the year. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Please observe the manufacturer's regulations! Cartechnic antifreeze for radiators is free of potentially harmful substances like amine, nitrite and phosphates. Frost protection down to -36° Celsius at mix ratio of 1:1.

Antifreeze for radiators CT 12 plus 1,5 Litre

item number.: 40 27289 00458 7

description:

Cartechnic antifreeze for radiators CT 12 plus is based on ethylene glycol. Its free of potentially harmful substances like amine, nitrite, phosphate and silicate. Protects against corrosion and cavitations. Offers a maintenances free frost and corrosion protection for engines made of cast iron and aluminium or combinations of both materials. Also for cooling systems made of aluminium and copper alloys. Frost protection down to -36° Celsius at mix ratio of 1:1. ATR recommends this product for MAN 324 SNF, MB 325.3, VW TL 774 F.

Antifreeze for radiators CT 12 plus ready to use 1,5 Litre

item number.: 40 27289 02606 0

description:

Cartechnic antifreeze for radiators CT 12 plus is based on ethylene glycol. Its free of potentially harmful substances like amine, nitrite, phosphate and silicate. Protects against corrosion and cavitations. Offers a maintenances free frost and corrosion protection for engines made of cast iron and aluminium or combinations of both materials. Also for cooling systems made of aluminium and copper alloys. Ready to use down to about -35° Celsius. Not necessary to mix with water. Simply pour directly into the radiator. ATR recommends this product for MAN 324 SNF, MB 325.3, VW TL 774 F.

Antifreeze for radiators CT 12 plus 5 Litre

item number.: 40 27289 00459 4

description:

Cartechnic antifreeze for radiators CT 12 plus is based on ethylene glycol. Its free of potentially harmful substances like amine, nitrite, phosphate and silicate. Protects against corrosion and cavitations. Offers a maintenances free frost and corrosion protection for engines made of cast iron and aluminium or combinations of both materials. Also for cooling systems made of aluminium and copper alloys. Frost protection down to -36° Celsius at mix ratio of 1:1. ATR recommends this product for MAN 324 SNF, MB 325.3, VW TL 774 F.

Antifreeze for radiators CT 12 plus 20 Litre

item number.: 40 27289 00460 0

description:

Cartechnic antifreeze for radiators CT 12 plus is based on ethylene glycol. Its free of potentially harmful substances like amine, nitrite, phosphate and silicate. Protects against corrosion and cavitations. Offers a maintenances free frost and corrosion protection for engines made of cast iron and aluminium or combinations of both materials. Also for cooling systems made of aluminium and copper alloys. Frost protection down to -36° Celsius at mix ratio of 1:1. ATR recommends this product for MAN 324 SNF, MB 325.3, VW TL 774 F.

Antifreeze for radiators CT 12 plus 60 Litre

item number.: 40 27289 00461 7

description:

Cartechnic antifreeze for radiators CT 12 plus is based on ethylene glycol. Its free of potentially harmful substances like amine, nitrite, phosphate and silicate. Antifreeze for radiators CT 12++ 1,5 Litre

item number.: 40 27289 00887 5

description:

Coolant and heat transfer fluid for combustion engines. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Offers protection against frost and corrosion over the whole life of the engine. Free of borat (borax), amine, nitrite, phosphate and silicate. Frost protection down to -37° Celsius at mix ratio of 1:1. Approvals: VW TL 774 G

Antifreeze for radiators CT 12++ ready to use 1,5 Litre

item number.: 40 27289 02607 7

description:

Coolant and heat transfer fluid for combustion engines. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Offers protection against frost and corrosion over the whole life of the engine. Free of borat (borax), amine, nitrite, phosphate and silicate. Ready to use down to about -35° Celsius. Not necessary to mix with water. Simply pour directly into the radiator. Approvals: VW TL 774 G

Antifreeze for radiators CT 12++ 5 Litre

item number.: 40 27289 00888 2

description:

Coolant and heat transfer fluid for combustion engines. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Offers protection against frost and corrosion over the whole life of the engine. Free of borat (borax), amine, nitrite, phosphate and silicate. Frost protection down to -37° Celsius at mix ratio of 1:1. Approvals: VW TL 774 G

Antifreeze for radiators CT 12++ 20 Litre

item number.: 40 27289 00889 9

description:

Coolant and heat transfer fluid for combustion engines. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Offers protection against frost and corrosion over the whole life of the engine. Free of borat (borax), amine, nitrite, phosphate and silicate. Frost protection down to -37° Celsius at mix ratio of 1:1. Approvals: VW TL 774 G

Antifreeze for radiators CT 12++ 60 Litre

item number.: 40 27289 00890 5

description:

Coolant and heat transfer fluid for combustion engines. Suitable for engines made of cast iron, aluminium or combinations of both materials. Also suitable for cooling systems made of aluminium- and copper alloy. Offers protection against frost and corrosion over the whole life of the engine. Free of borat (borax), amine, nitrite, phosphate and silicate. Frost protection down to -37° Celsius at mix ratio of 1:1. Approvals: VW TL 774 G

Antifreeze for radiators CT 13 1,5 Litre

item number.: 40 27289 02144 7

description:

Coolant and heat transfer fluid for combustion engines. Suitable for engines made of cast iron, aluminum or combinations of both materials. Particularly suitable for use in light metal engines for which a particularly effective aluminum protection is required at high temperatures. Borat (borax), amine, nitrite, and phosphate free. Frost protection down to -35° Celsius at mix ratio of 1:1. Approval: VW TL 774 J

Antifreeze for radiators CT 13 ready to use 1,5 Litre

item number.: 40 27289 02608 4

description:

Coolant and heat transfer fluid for combustion engines. Suitable for engines made of cast iron, aluminum or combinations of both materials. Antifreeze for washing systems 500 ml

item number.: 40 27289 00019 0

description:

Cleaning and anti-frost agent. Suitable for fan type nozzles and polycarbonate panes. With a lemon fragrance and active cleaner. Can be used in summer and winter. Easily biodegradable.

Frost-resisting down to approx. -30° Celcius mix ratio 2:1 (antifreeze:water), mix ratio 1:1 approx. -20° Celsius, mix ratio 1:2 approx. -10° Celsius.

Antifreeze for washing systems 500 ml

item number.: 40 27289 02235 2

description:
