Magneti Marelli After Market Parts and Services S.p.A. presenta ai propri clienti, nelle pagine che seguono, un'ampia e aggiornata gamma di ammortizzatori. Realizzati con i più evoluti processi produttivi, questi prodotti garantiscono, al mercato del ricambio, gli stessi standard qualitativi e le stesse elevate prestazioni del primo impianto. Gli ammortizzatori Magneti Marelli, idraulici o a gas, sono realizzati in modo tale da soddisfare le esigenze per le applicazioni su qualsiasi autoveicolo. Sono del tipo a doppio effetto; hanno quindi azione frenante autoregolabile, sia nella fase di compressione sia in quella di distensione. Tale accorgimento migliora il comportamento dell'ammortizzatore, ne riduce la rumorosità e garantisce un maggior comfort e una più affidabile tenuta di strada del veicolo.

GB

In the following pages, **Magneti Marelli After Market Parts and Services S.p.A.** present their customers with a wide and updated range of shock absorbers, produced using the latest production processes. These products, used on the spare parts market, guarantee the same quality and high performance as the vehicle's original system. Magneti Marelli hydraulic or gas shock absorbers are designed to satisfy the operational needs of any motor vehicle.

The products are dual effect, and therefore have a self-adjusting braking action, in both the compression and release phases. This feature improves the performance of the shock absorber and reduces noise. It also ensures greater comfort and improves the road-holding characteristic of the vehicle.

D

In den nachfolgenden Seiten stellt **Magneti Marelli After Market Parts and Services S.p.A.** den eigenen Kunden ein umfassendes, aktualisiertes Stössdämpfer-Lieferprogramm vor. Diese Produkte, gefertigt nach den neuesten Fertigungsverfahren, bieten dem Ersatzteilmarkt dieselben Qualitätsmaßstäbe und erhöhte Leistungen an, wie sie bei der Erstausrüstung üblich sind. Die Stössdämpfer von Magneti Marelli, ob in hydraulischer oder Gas-Ausführung, sind so konstruiert, dass sie alle Anforderungen bei jedem Anwendungsfall bzw. Jeder Fahrzeugsart erfüllen. Diese Stössdämpfer haben eine Doppelwirkung, d.h. sie weisen eine selbstregulierende Bremsfunktion sowohl in der Druck-als auch in der Entlastungsphase auf. Dadurch wird das Stössdämpferverhalten verbessert, das Geräusch gemindert, ein erhöhter Komfort erreicht sowie ein sichereres Fahrverhalten erzielt.

F

Aux pages suivantes, **Magenti Marelli After Market Parts and Services S.p.A.** présente à sa clientèle une vaste gamme d'amortisseurs entièrement mise à jour. Ces produits, qui ont été réalisés avec des procédés de production d'avant-garde, offrent au marché des pièces détachées, les mêmes standards de qualité et les mêmes niveaux de performance que ceux d'une installation neuve. Les amortisseurs Magneti Marelli, hydrauliques ou pneumatiques, sont conçus de façon à satisfaire les exigences pour les applications sur n'importe quel type de véhicule automobile.
