MONROE
MAXLIFT
GAS CHARGED LIFT SUPPORT

Max-Lift is a sealed, gas filled pressure cylinder that exerts an outward force.

This force acts like a spring to lift and hold open hatches, bonnets and boots. An exact replacement fit for most applications.

Features

- Superior rod finish - increased seal durability.
- High strength piston seal - superior sealing strength.
- High pressure gas filled - smooth action.
- Two years warranty.

MAX-LIFT	Typical Part N° Series
GAS SPRING	ML-

Monroe® quality and durability makes Max-Lift™ the only choice.

Monroe® Max-Lift gas charged lift supports are now available as exact replacement fits for most vehicles sold in Europe since 1980.

Max-Lift is the market's premium replacement product. The highest quality, design and durability standards have been applied to their manufacture. And isn't that what your customers have a right to expect?

Max-Lift installation guide

- Always replace both lift supports to ensure top performance and to prevent twisting caused by uneven loading.
- Gas charged Lift Supports typically store a gas charge of over 330 Newton and cannot be compressed by hand
- Gas charge Lift Supports can be installed in minutes with no special tools required.
- Careful inspection of all hinges and connecting points should be made for wear and tear or stress fractures. These should be replaced or repaired before Lift Supports installation.

Installation Instructions:

- Before removing old lift supports, examine any fittings supplied to determine which components must be re-used.
- Have someone hold the hatch, bonnet, boot or rear window open while replacing the lift supports
- The new lift support must be installed in the same position as the old one which was removed.
- Do not remove both lift supports at the same time. Replace one, then remove and replace the second one.
- Gas spring orientation ie. It is important that the gas spring be mounted with the Tube up in the closed position as this ensures lubrication and smooth operation

Important notes:

When ordering a Gas Spring, please consider the following :

- Overall length from centre to centre (Extended)
- Pressure
- Type of end fittings
- Year, Make and Model of vehicle

How to measure a Gas Spring:

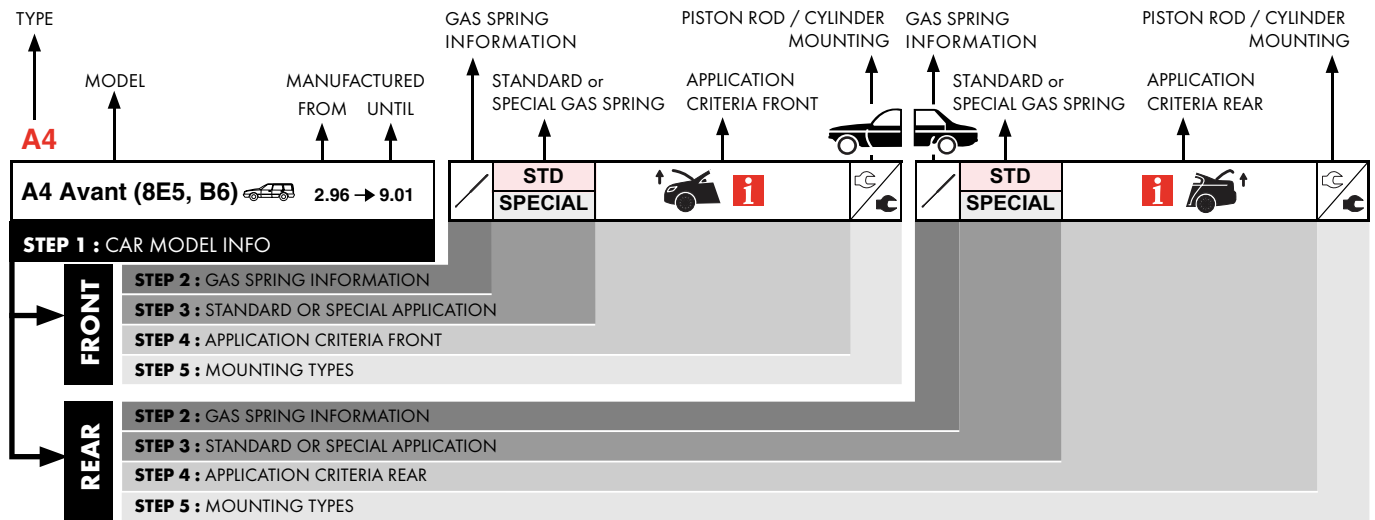

- Overall length is measured with strut fully extended and taken between the centre's of the fixing studs.
- Stroke is measured between top of strut barrel and end of shaft fitting.

MONROE® Van-Magnum**

MONROE® Europe provides a 2 year warranty without mileage limitation.
(3 year warranty for MONROE® Reflex, MONROE® Quick-Strut, MONROE® Springs)
The Warranty of MONROE® Europe is limited to the delivery of a new MONROE® product.
All claims are first handled by the MONROE® distributor and then honoured by MONROE®.

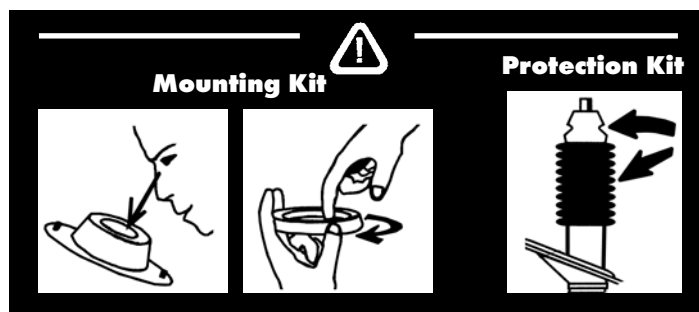

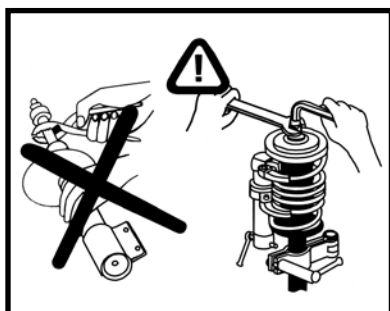

The reseller/installer will provide the MONROE® distributor with all relevant information such as:

- consumer's name and address
- fitting or sales dates
- MONROE® product part number
- vehicle identification data
- proof of purchase documents
- description of the defect.

Excluded from warranty are:

1. Regular wear-out.
2. MONROE® products fitted contrary to application information in the MONROE® catalogue or its subsequent amendments.
3. MONROE® products which have been modified or damaged by incorrect mounting or incorrect use of the vehicle, contrary to the car manufacturers' specifications or MONROE®s.
4. MONROE® products damaged by mounting on another car than indicated in the MONROE® catalogue or its subsequent amendments.
5. Shock absorbers with damaged piston rod or damaged oil seal due to holding the piston rod with a wrench or pliers instead of the correct tool.
6. Premature wear-out caused by re-use of damaged mounting parts such as: rubber dirt shields, damaged bump stops, etc.
7. Damages caused by an accident.
8. MONROE® products damaged while used in rally or racing sports.
9. Ride-Levelers with air sleeve abrasion caused by incorrect mounting.
10. Reconditioned or recycled MONROE® products.
11. Defects caused by lack of maintenance or maintenance wrongly executed on the vehicle.

In addition: All MONROE® products are developed and manufactured according to original suspension specifications from car manufacturers. MONROE® indicates in its catalogue the originally lowered models on which its products fit.
